

GREAT Time! Oct 10, 2026

Hey Miami Rcers!

We had a great time today! Sure it was overcast, but the wind ended up being straight up the runway, the temperature was comfortably cool, the flying was active and the food was DELICIOUS!!!

We ended up with about 20 people with 2 guests. It was an intimate crowd where everyone interacted with everyone else.

Lots and lots of flying, more than when we have a big crowd, actually. One of the highlights was Dewey and his MiG-15. Here it is just as it breaks ground. It really flies well!

This was our last of the season, and it was a good one. It exemplified what a really fine club Miami RC is. Folks were glad to see each other, talked enthusiastically and spotted for each other. There were many interesting airplanes in addition to Dewey's. There was something in the air all day long, except when we were eating!
